Notes:

## 1. Basis of preparation

The condensed consolidated financial statements have been prepared in accordance with Hong Kong Accounting Standard ("HKAS") 34 "Interim Financial Reporting" issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") as well as with the applicable disclosure requirements of Appendix 16 to the Rules Governing the Listing of Securities (the "Listing Rules") on The Stock Exchange of Hong Kong Limited (the "Stock Exchange").

## 2. Preparation of the financial statements

The condensed consolidated financial statements have been prepared on the historical cost basis, except for investment properties and certain financial instruments, which are measured at fair values.

Other than additional accounting policies resulting from application of amendments to Hong Kong Financial Reporting Standards ("HKFRS"), the accounting policies and methods of computation used in the condensed consolidated financial statements for the six months ended 30 June 2022 are the same as those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2021.

### Application of amendments to HKFRS

In the current interim period, the Group has applied the following amendments to HKFRSs issued by the HKICPA, for the first time, which are mandatorily effective for the annual period beginning on 1 January 2022 for the preparation of the Group's condensed consolidated financial statements:

|                       |                                                              |
|-----------------------|--------------------------------------------------------------|
| Amendments to HKFRS 3 | Reference to the Conceptual Framework                        |
| Amendment to HKFRS 16 | Covid-19-Related Rent Concessions beyond 30 June 2021        |
| Amendments to HKAS 16 | Property, Plant and Equipment – Proceeds before Intended Use |
| Amendments to HKAS 37 | Onerous Contracts – Cost of Fulfilling a Contract            |
| Amendments to HKFRSs  | Annual Improvements to HKFRSs 2018-2020                      |

The application of amendments to HKFRSs in the current period has had no material impact on the Group's financial positions and performance for the current and prior periods and/or on the disclosures set out in these condensed consolidated financial statements.

## 3.

HKFRS 8 "Operating Segments" ("HKFRS 8") requires operating segments to be identified on the basis of internal reports about components of the Group that are regularly reviewed by the executive directors of the Company, who are the Chief Operating Decision Makers ("CODM"), in order to allocate resources to segments and to assess their performance. Specifically, the Group's reportable segments under HKFRS 8 are organised into six main operating divisions – (i) laminates, (ii) PCBs, (iii) chemicals, (iv) properties, (v) investments (mainly investment income from debt instruments at fair value through other comprehensive income and equity instruments at fair value through profit or loss) and (vi) others (mainly including service income, manufacture and sale of magnetic products and hotel business).

The accounting policies the Group used for segment reporting under HKFRS 8 are the same as those used in its HKFRS consolidated financial statements. Segment profit or loss represents the profit (loss) earned by each segment with certain items not included (share of result of an associate, share of results of joint ventures, share-based payments, finance costs and unallocated corporate income and expenses). This is the measure reported to the CODM for the purpose of resource allocation and performance assessment.

Segment revenues and results by reportable segments are presented below:

Under the Law of the PRC on EIT (the "EIT Law") and Implementation Regulation of the EIT Law, the tax rate of the PRC subsidiaries is 25% for both periods.

Under the EIT Law, withholding tax of 5%–10% is imposed on dividends declared in respect of profits earned by subsidiaries in Mainland China from 1 January 2008 onwards. Pursuant to the EIT Law, a High-New Technology Enterprise shall be entitled to a preferential tax rate of 15% for three years since it was officially endorsed. Certain subsidiaries of the Company in the PRC obtained official endorsement as a High-New Technology Enterprise and with the expiry dates on or before 2024 (2021: 2023).

The provision of LAT is estimated according to the requirements set forth in the relevant PRC tax laws and regulations. LAT has been levied at progressive rates ranging from 30% to 60% on the appreciation of land value, represented by the excess of sales proceeds of properties over prescribed direct costs. Prescribed direct costs are defined to include costs of land, development and construction costs, as well as certain costs relating to the property development. According to the State Administration of Taxation's official circulars, LAT shall be payable provisionally upon sales of the properties, followed by final ascertainment of the gain at the completion of the properties development.

On 21 March 2018, the Hong Kong Legislative Council passed The Inland Revenue (Amendment) (No. 7) Bill 2017 (the "Bill") which introduces the two-tiered profits tax rates regime. The Bill was signed into law on 28 March 2018 and was gazetted on the following day. Under the two-tiered profits tax rates regime, the first HK\$2 million of profits of the qualifying group entity will be taxed at 8.25%, and profits above HK\$2 million will be taxed at 16.5%. The profits of group entities not qualifying for the two-tiered profits tax rates regime will continue to be taxed at a flat rate of 16.5%.

The directors of the Company (the "Directors") considered the amount involved upon implementation of the two-tiered profits tax rates regime as insignificant to the consolidated financial statements. Hong Kong Profits Tax is calculated at 16.5% of the estimated assessable profit for both periods.

Taxation arising in other jurisdictions is calculated at the rates prevailing in the relevant jurisdictions.

## 13. Share Option Scheme

**(b) Employee Incentive Scheme of Kingboard Limited (KLHL)**

The share option scheme of KLHL ("2017 KLHL Scheme") was approved by the shareholders of the Company and the shareholders of KLHL on 29 May 2017, and the 2017 KLHL Scheme took effect upon receiving approval from the Listing Committee of the Stock Exchange on 2 November 2017. The purpose of the 2017 KLHL Scheme is to provide incentive or rewards to the eligible participants of the 2017 KLHL Scheme for their contribution to, and continuing efforts to promote the interests of the KLHL Group (as defined below).

The 2017 KLHL Scheme is valid for a period of ten years. The directors of KLHL may, at its discretion, grant options to subscribe for shares in KLHL to eligible participants who contribute to the long-term growth and profitability of KLHL and include (i) any employee or proposed employee (whether full-time or part-time and including any executive director), consultants or advisers of or to KLHL, any of its subsidiaries or any entity ("KLHL's Invested Entity") in which KLHL and its subsidiaries (collectively referred to as the "KLHL Group") hold an equity interest; (ii) any non-executive directors (including independent non-executive directors) of KLHL, any of its subsidiaries or any KLHL's Invested Entity; (iii) any supplier of goods or services to any member of the KLHL Group or any KLHL's Invested Entity; (iv) any customer of the KLHL Group or any KLHL's Invested Entity; (v) any person or entity that provides research, development or other technological support to the KLHL Group or any KLHL's Invested Entity; and (vi) any shareholder of any member of the KLHL Group or any KLHL's Invested Entity.

The subscription price of KLHL's share in respect of any option granted under the 2017 KLHL Scheme must be at least the highest of (i) the closing price of the shares of KLHL as stated in the Stock Exchange's daily quotations sheet on the date of grant of the option, which must be a business day; (ii) the average closing price of the shares of KLHL as stated in the Stock Exchange's daily quotations sheets for the five business days immediately preceding the date of grant of the option; and (iii) the nominal value of the shares of KLHL.

The option may be accepted by a participant within 28 days from the date of the offer for the grant of the option upon the payment of a consideration of HK\$1. An option may be exercised at any time during a period to be determined and notified by the directors of KLHL to each grantee, and in the absence of such determination, from the date upon which the offer for the grant of the option is accepted but shall end in any event not later than 10 years from the date of grant of the option subject to the provisions for early termination thereof. The directors of KLHL may, at their absolute discretion, fix any minimum period for which an option must be held, any performance targets that must be achieved and any other conditions that must be fulfilled before the options can be exercised upon the grant of an option to a participant.

The total number of shares of KLHL which may be issued upon exercise of all options to be granted under the KLHL Scheme and any other share option scheme of KLHL (excluding, for this purpose, options lapsed in accordance with the terms of the 2017 KLHL Scheme and any other share option scheme of KLHL) must not in aggregate exceed 10% of the total number of shares of KLHL in issue as at the date of approval of the 2017 KLHL Scheme.

The maximum number of shares of KLHL which may be issued upon exercise of all outstanding options granted and yet to be exercised under the 2017 KLHL Scheme and any other share option scheme of KLHL must not exceed 30% of the issued share capital of KLHL from time to time.

## BOARD REPORT

On behalf of the board of directors of Kingboard Holdings Limited, I am delighted to report to our shareholders the results of the Company and its subsidiaries (the “Group”) for the six months ended 30 June 2022 (the “Period”). During the Period, the pandemic lingering in China and global high inflation continued to bring broad and deep impact to the business sector. On the back of a balanced business portfolio and developing in different market areas, the Printed Circuit Boards (PCBs) Division, thus registering increased segment revenue. The Chemicals Division recorded a slight revenue growth compared to the same period last year, having benefitted from the high prices and strong sales of the Group’s major chemical products including caustic soda, acetic acid and phenol acetone. With increased handover of residential properties during the Period, the Property Division achieved significant revenue growth. In the face of the

## PERFORMANCE

**Laminates Division:** In spite of a slide in demand in the electronics industry during the Period, the Laminates Division achieved satisfactory progress with its product portfolio enhancement efforts as it actively developed new market arenas. A significant increase in the share of sales of high-end and high-value-added products was witnessed. This high-end product portfolio included thin laminates for portable devices, lead-free and halogen-free laminates with high environmental compliance, fire-resistant laminates with broad compatibility, and high-frequency and high-speed laminates with low loss and high transmission speed. Segment revenue of the Laminates Division declined 26% to HK\$10,747.1 million. During the Period, the Division's experienced management team has actively mitigated the impact of high commodity, energy and transportation costs by raising efficiency and lowering energy consumption through technical enhancements. The Division has also effectively cushioned the pressure of cost increases by raising the rate of automation to achieve savings on labour expenses. Earnings before interest, taxes, depreciation and amortisation ("EBITDA") were down 49% to HK\$2,260.8 million during the Period.

**PCBs Division:** The Division has made relentless efforts in expanding sales in different markets, including the automobile, telecommunications and consumer electronics. In support of this, the PCBs segment has continued to bring in high-calibre management and technical talents, while investing in state-of-the-art machinery and forging highly automated production lines. By constantly seeking room for improvement in the technical aspects and overcoming industry-wide obstacles one after another, the Division made progress towards advanced PCBs. Putting the market and efficiency as the primary considerations, the PCB Division adopted modern manufacturing execution system ("MES"), and also precise quality tracing and analysis were launched throughout the entire process to drive production efficiency and product quality enhancements. Segment revenue of the PCBs Division increased 8% to HK\$6,985.8 million, but as high inflation pushed up costs, EBITDA fell by 10% to HK\$838.6 million.

**Chemicals Division:** The high prices and strong sales of the Group's major chemical products, including caustic soda, acetic acid and phenol acetone, drove up segment revenue (including inter-segment sales) by 5% to HK\$7,936.4 million during the Period. However, following an oil price hike, raw materials consumed by the Division saw a general price surge, bringing EBITDA down by 11% to HK\$1,887.2 million.

**Property Division:** Due to an increased delivery of residential properties during the Period, revenue derived from property sales increased to HK\$3,747.6 million. Rental income also rose by 5% to HK\$604.6 million. As a result, segment revenue of the Property Division went up by 657% to HK\$4,352.2 million, with EBITDA also up by 397% to HK\$2,131.9 million.

## INVESTMENT

As at 30 June 2022, the Group held in aggregate approximately HK\$6,457 million (31 December 2021: approximately HK\$9,577 million) investments in securities instruments, representing approximately 6% (31 December 2021: approximately 9%) of the total asset of the Group as at 30 June 2022. These securities investment consist of mostly shares listed on Main Board of the Stock Exchange and bonds issued mainly by companies listed on the Main Board of the Stock Exchange. The Group acquired these securities instruments through on-market purchases. The Group will from time to time monitor the price movement of prices in securities and bonds and may adjust its investment portfolio as and when appropriate.

The following table sets out the securities investments held by the Group in respect of the same issuer which the Group considers to be relatively significant as at 30 June 2022. Bonds with fixed coupon rate of 5.875%  
per annum and maturity date in February  
2023 listed on SGX by Guangzhou R&F  
Properties Co., Ltd. ("GRFP")

Based on the announcements of GRFP dated 17 June 2022, 30 June 2022, 11 July 2022 and 14 July 2022, GRFP conducted the Consent Solicitations in June 2022 to seek waivers of existing and potential consequential Defaults or Events of Default under the Notes and to extend its debt maturity profile. GRFP offered Eligible Holders of each Series of the Notes an opportunity to consent to, among others, the extension of the maturity date of such Series of the Notes, which will allow GRFP to improve its overall financial condition and maintain a sustainable capital structure. In July 2022, GRFP completed the above debt restructuring scheme.

During the reporting period, the Group's above GRFP debt instruments at fair value through other comprehensive income portfolio generated interest income amounting to HK\$44,829,000. During the period, the Group did not acquire or sell the above GRFP debts instruments at fair value through other comprehensive income.

According to above announcements, GRFP were not able to pay the bond interests due to its adverse financial condition. The Group had performed an impairment assessment on the debt instruments held under the expected credit loss ("ECL") model. The measurement of ECL is a function of the probability of default and loss given default (i.e. the magnitude of the loss if there is a default), with the assessment of the probability of default and loss given default being based on historical data and forward-looking information. The estimation of ECL reflects an unbiased and probability-weighted amount that is determined with the respective risks of default occurring as the weights, and also with reference to the time value of money. In determining ECL on the Group's debt instruments for the period, the management had taken into accounts factors including the downgrading of credit rating of the debt instruments by the credit rating agencies, the defaults of the bond issuer in making payments of interest and principal for its indebtedness, and forward-looking information including the future macroeconomic conditions at places where the bond issuer is operating.

The Group recognised impairment loss in profit or loss under ECL model of HK\$1,575,440,000 on the above GRFP debt instruments at fair value through other comprehensive income by reference to exposures at default, recovery rate and adjustments for forward looking information.

## LIQ IDI AND CAPI, AL RE O RCE

The Group's consolidated financial and liquidity position remained robust. As at 30 June 2022, Group net current assets and current ratio (current assets divided by current liabilities) were HK\$23,907.9 million (31 December 2021: HK\$23,419.0 million) and 2.07 (31 December 2021: 1.87) respectively.

The net working capital cycle increased to 64 days as at 30 June 2022 from 60 days as at 31 December 2021 on the following key metrics:

- Inventories, in terms of stock turnover days, were 44 days (31 December 2021: 38 days).
- Trade receivables, in terms of debtor turnover days, were 52 days (31 December 2021: 62 days).
- Trade and bills payable (excluding bills payable for property, plant and equipment), in terms of creditor turnover days, were 32 days (31 December 2021: 40 days).

The Group's net gearing ratio (ratio of bank borrowings net of bank balances and cash to total equity) was approximately 19% (31 December 2021: 19%). The ratio of short-term to long-term bank borrowings stood at 40%:60% (31 December 2021: 58%:42%). During the Period, the Group invested approximately HK\$2,300 million in new production capacity and HK\$900 million in property construction expenses. Leveraging on the management team's ample professional experience, solid business foundation and a strong financial position, the Group strongly believes these investments will create stable and satisfactory returns for shareholders in the long run. During the Period, the Group continued to adopt a prudent financial management policy. The Group did not enter into any material derivative financial instruments, nor did the Group have any material foreign exchange exposure. The Group's revenue, mostly denominated in Hong Kong dollars, RMB and US dollars, was fairly matched with the currency requirements of its operating expenses. The Group possessed adequate financial resources in reserve to fulfil its requirements for future market developments. During the Period, Kingboard Laminates Holdings Limited (Stock Code: 1888), a subsidiary of the Group, successfully signed a 5-year sustainability-linked loan facility agreement with 14 major international and local banks. The syndicated facility received an overwhelming response from the market and was significantly oversubscribed. The final size of the loan came to HK\$7 billion, reflecting the Group's efforts towards its sustainability goals, as well as the banking industry's trust and support of the Group's environmental to t,b oalelm ESGuityet 2022.

As at 30 June 2022, variable-rate bank borrowings of HK\$78.66 million, of which HK\$78.66 million is denominated in Hong Kong dollars and the remaining HK\$0.41 million is denominated in US dollars.

## CONINGEN, LIABILITIES

The Group provided guarantees amounting to approximately HK\$183,837,000 as at 30 June 2022 (31 December 2021: HK\$336,601,000) to facilitate mortgage bank loans applications of purchasers of the properties that were developed by the Group. Please refer to note 16 to the Group's unaudited condensed consolidated financial statements for the Period in this report for further details of such guarantees.

## HUMAN RESOURCES

As at 30 June 2022, the Group employed a global workforce of approximately 36,000 (31 December 2021: 36,000). Considering staff an important asset, the Group continues to adopt sound human resources management and planning which help deliver satisfactory results. In addition to offering competitive salary packages, the Group grants share options and discretionary bonuses to eligible employees based on the Group's overall financial achievements and employees' individual performance. Kingboard Management Academy established by the Group has actively nurtured mid-rank and senior management personnel over the years. Furthermore, the Group recruits and nurtures several hundred promising university graduates from mainland China, Hong Kong and Taiwan every year. The Group will continue to implement training to retain talents in a bid to gain fresh energy for long-term development and to drive the Group's continued growth.

## PROSPECTS

Entering the second half of the year, the global macro environment, characterised by the dynamics of international relations and high inflation, will complicate the internal and external environments in which corporations operate. The Group will remain committed to strengthening its cash flow management. Echoing the state's aim for peak carbon dioxide emissions by 2030 and carbon neutrality by 2060, the Group is establishing solar photovoltaic power projects within

Entry for long-term development and to drive the Group's continued growth.

**Laminates Division:** During the first half of the year, the Group added monthly capacities of 4,200 tonnes of glass yarn and 300 tonnes of copper foil in Lianzhou, Guangdong Province. In Shaoguan, Guangdong Province, the glass fabric facility with a monthly capacity of 9 million metres has already entered operation, and is planning to add 4 million metres of glass fabric capacity per month during the second half. The quality of the Group's upstream materials has been widely recognised by external customers. The aforesaid expansion plan will drive the Group's external sales of upstream materials to increase earnings, in addition to coping with internal business needs. Some downstream customers maintained strict control of their inventories during the first half of the year, but as inventories have come down to lower levels, it is expected that demand will rebound gradually towards the coming half year as customers begin planning to increase orders. The laminates factory newly built in Shaoguan, Guangdong Province, has been in full commission, strategically increasing the Group's coverage in different regions. The Division will continue to collaborate with premium customers to further the certification of high-end products, and to drive the stable development of the Division.

**PCBs Division:** The Group possesses multifaceted advantages of supreme craftsmanship, comprehensive certification and good quality in end-user segments including automobile, telecommunications and consumer electronics. The Division now commands a healthy order book, in which demands for PCBs for new energy vehicles and photovoltaic use are particularly outstanding. That the price of laminates, a major raw material for PCBs, came down from the same period last year bodes well for the Division's profit margin. The Division is continuously developing in the direction of higher technical content like high aspect ratio and high precision alignment. These efforts will support the building of a portfolio of higher-value-added products whilst forging a closer collaborative ecology with customers. The Division will continue to bolster the core competitiveness of the various PCBs brands including Elec & Eltek, Techwise Circuits and Express Electronics. The Division will bring in 500,000 square feet of additional capacity for multi-layered PCBs in the second half of the year with a view to increasing the market penetration of Kingboard PCBs.

**Chemicals Division:** A more sophisticated development mode with consideration given to ecology will remain China's work priorities in 2022, along with the continued defence of the country's clear sky, water and clean land. The Chemicals Division will take part in this national effort by ensuring production safety and emission standards. Meanwhile, it works to enhance factory efficiency, optimise resource usage, and lower energy consumption. Engineering-grade plastic materials used to lower the weight of new energy vehicles, photovoltaic film, and electric cables applied to solar power generators and wing paddles in wind turbines constitute the majority of demands for the Division's phenol acetone and Bisphenol A output. To capture this demand, the Group is preparing to welcome a yearly addition of 450,000 tonnes of phenol acetone and 240,000 tonnes of Bisphenol A in Daya Bay, Huizhou, Guangdong Province.

**Property Division:** The Division will continue to adopt a prudent operational strategy. Over the past four years, the Division has not replenished its land bank. The Division performed well in the pre-sale of properties in July and August, and going forward, it will launch its residential projects in eastern China as originally planned, as a means to expedite capital recycling. At the same time, driven by the following three factors, the Division's rental income will grow steadily: First, the lease-free period of the commercial property located near the Kunshan high-speed railway station in Jiangsu Province will expire consecutively. Second, the occupancy rate of Shanghai Kingboard Plaza Phase II has increased significantly. Third, the acquisition of a commercial tower, Two London Wall Place in London, the United Kingdom, in June 2022. Rental income in 2022 is expected to be approximately HK\$1,270 million, an increase of approximately 6% over last year. The properties invested by the Group are located in the United Kingdom, Hong Kong, eastern China and southern China, which will help diversify risks and continuously bringing stable cash inflows to the Group.

## APPRECIATION

On behalf of the Board, I would like to thank our shareholders, clients, banks, the management and employees for their unreserved support to the Group during the Period.

## CLOSURE OF REGISTER OF MEMBERS

The register of members of the Company will be closed from Thursday, 8 December 2022 to Friday, 9 December 2022 (both days inclusive) during which period no transfers of shares will be registered. In order to qualify for receiving the interim dividend, the Company's shareholders are reminded to ensure that all transfers of shares, accompanied by the relevant share certificates and transfer forms, must be lodged with the Company's branch share registrar in Hong Kong, Tricor Secretaries Limited, at 17/F, Far East Finance Centre, 16 Harcourt Road, Hong Kong for registration not later than 4:00 p.m. on Wednesday, 7 December 2022.
