

DIRECTORS' REPORT 董事會報告

The Directors of the Company (the "Directors") present their annual report and the audited consolidated financial statements for the year ended 31 December 2017.

PRINCIPAL ACTIVITIES

The Company is an investment holding company. The activities of its principal subsidiaries and associates are set out in Notes 42 and 19 respectively to the consolidated financial statements.

BUSINESS REVIEW

The business review of the Group for the year ended 31 December 2017 can be found in the section headed "Chairman's Statement" of this annual report, which forms part of this Directors' Report.

Principal Risks and Uncertainties

The Group is exposed to various risks and uncertainties which are specific to the Group and/or the industries in which the Group operates. These risks may materially affect the Group's business operations, financial condition, results of operations and business prospects. The Group has identified the key risks and uncertainties as follows:

Product defects

The products of the Group may contain defects that can only be detected when the electronics systems into which they are incorporated are in use. The Group could be exposed to significant liability claims in the event that its products are found to be defective. While the Group has implemented sound systems to monitor its products at various stages of its production processes, no assurance can be given that the Group's products are free of defects. Any significant liability claims could have an adverse impact on the results of operations and reputation of the Group.

Customer contracts

The Group typically enters into one-off purchase orders with its customers. As such, the amount of purchase orders may vary significantly from time to time, and it is difficult to forecast the amount of orders to be received by the Group in the future. No assurance can be given that the Group's customers will continue to place purchase orders with it in the future in similar amounts to prior periods, if at all. As a result, the results of operations of the Group may vary significantly in the future.

Competitive industry

The business segments in which the Group operates are highly competitive. No assurance can be given that the Group will be able to compete successfully against its current competitors or emerging companies in the future. If the Group fails to compete effectively, the Group's results of operations, financial condition and business prospects may be materially and adversely affected.

3. SIGNIFICANT ACCOUNTING POLICIES

(continued)

Inventories

Inventories are stated at the lower of cost and net realisable value. Costs of inventories are calculated using the weighted average method. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sales.

Licenced inventories

Licenced inventories shown as either other non-current assets or other current assets in the consolidated statement of financial position are stated at cost less impairment, if any.

Impairment losses on assets other than goodwill (see the accounting policies in respect of goodwill)

At the end of the reporting period, the Group reviews the carrying amounts of its tangible assets to determine whether there is an indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any.

When it is not possible to estimate the recoverable amount of an asset individually, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset (or a CGU) for which the estimates of future cash flows have not been adjusted.

3. 主要會計政策(續)

存貨

存貨按成本或可變現淨值兩者中之較低者入賬。存貨成本按加權平均法計算。可變現淨值指存貨估計售價減估計完成所需之全部成本以及銷售所需之成本。

授權使用存貨

授權使用存貨在綜合財務狀況表列為其他非流動資產或其他流動資產(如有)。

資產之減值虧損(商譽除外(請參閱有關商譽之會計政策))

於報告期間結束當日,本集團須審閱其有形資產之賬面值,以確定是否有任何跡象顯示該等資產出現減值虧損。倘出現任何有關跡象,則估計資產可收回金額,以釐定減值虧損的幅度(如有)。

倘不能估計單一資產的可收回金額,則本集團會估計其資產所屬現金產生單位的可收回金額。於可識別合理和一致分配基準的情況下,企業資產亦會被分配到個別現金產生單位,否則或會被分配到可合理地及按一致分配基準而識別的最小的現金產生單位組別中。

可收回金額為公平值減出售成本或使用價值之較高者。評估使用價值時,估計未來現金流量乃使用稅前貼現率折現至其現值,該貼現率反映目前市場對資金時間值之評估以及估計未來現金流量未經調整之資產(或現金產生單位)的獨有風險。

3. SIGNIFICANT ACCOUNTING POLICIES

(continued)

Financial instruments (continued)

Financial assets (continued)

Impairment of financial assets (continued)

For all other financial assets, objective evidence of impairment could include significant financial difficulty of the issuer or counterpart; or breach of contract, such as default or delinquency in interest and principal payments; or it becoming probable that the borrower will enter bankruptcy or financial re-organisation; or the disappearance of an active market for that financial asset because of financial difficulties.

For certain categories of financial asset, such as trade receivables, assets that are assessed not to be impaired individually are, in addition, assessed for impairment on a collective basis. Objective evidence of impairment for a portfolio of receivables could include the Group's past experience of collecting payments, an increase in the number of delayed payments in the portfolio past the average credit period, as well as observable changes in national or local economic conditions that correlate with default on receivables.

For financial assets carried at amortised cost, the amount of impairment loss recognised is the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the financial asset's original effective interest rate.

For financial assets carried at cost, the amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment loss will not be reversed in subsequent periods.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade receivables, where the carrying amount is reduced through the use of an allowance account. Changes in the carrying amount of the allowance account are recognised in profit or loss. When a trade receivable is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited to profit or loss.

金融資產減值(續)

就所有其他金融資產而言，減值的客觀證據可能包括發行人或交易對手出現重大財政困難；或違約，如不能履行或拖欠利息及本金款項，或借貸人有可能面臨破產或財務重組；或因財政困難，導致該金融資產於活躍市場消失。

就若干類別的金融資產(如貿易應收賬款)而言，倘資產經評估不會單獨作出減值，將會彙集一併評估減值。應收賬款組合出現減值的客觀證據包括本集團過往收款經驗、組合內逾期超過平均信貸期之還款數目上升、國家或地區經濟狀況出現明顯變動導致應收賬款未能償還。

就按攤銷成本計值的金融資產而言，減值虧損金額確認為資產的賬面值與估計未來現金流量的現值(以金融資產的原始實際利率折現)間的差額。

就按成本計值的金融資產而言，減值虧損的金額以資產的賬面值與估計未來現金流量的現值(以類似金融資產的當前市場回報率折現)間的差額計量。該等減值虧損不會於其後期間撥回。

所有金融資產的減值虧損會直接於金融資產的賬面值中作出扣減，惟貿易應收賬款除外，其賬面值會透過撥備賬作出扣減。撥備賬內的賬面值變動會於損益中確認。當貿易應收賬款被視為不可收回時，其將於撥備賬內撇銷。於其後重新收回的先前撇銷的款項將計入損益。
